

DO YOU HAVE A PIPE STICKING UP IN YOUR FRONT YARD?

THIS MAY BE YOUR SEWER CLEAN-OUT PIPE. IT IS A 4" CAST IRON PIPE USUALLY PLACED NEAR THE PROPERTY LINE AND IS IMPORTANT FOR INSPECTION AND AS AN ENTRY POINT FOR RESOLVING BLOCKAGES TO YOUR HOME AND TO THE STREET.

IF IT IS ABOVEGROUND, IT SHOULD BE AT LEAST 3" HIGH WITH A FERNCO OR MUSHROOM CAP. THIS PIPE CAN ALSO BE BROUGHT FLUSH TO THE GROUND BY USING AN IRON BODY FERRULE WITH BRASS SCREW PLUG AVAILABLE AT ANY PLUMBING SUPPLY STORE.

PLEASE CONTACT THE WATER AND SEWER DEPARTMENT AT (215) 343-1800 WITH ANY QUESTIONS.
